Skaters who have registered for the 2010 Sectional Competition must compete in Competitive Events for the balance of the season.

ELEMENTS EVENTS

All skaters in each flight will be on the ice at the same time for the element competition. After the warm-up each skater will perform the designated move. The skater may request a second attempt, by signaling the technical representative. **THE SECOND ATTEMPT WILL BE THE ONE MARKED.**

- Elements will be skated in isolation (per LTAD philosophy)
- Elements must be skated as specified and may be performed in any order.
- Spins and combination spins must be held for the specified revolutions.
- There must be no turn or change of foot between jumps in combination
- An axel is a single jump
- Field movements (for example Spirals, Ina Bauers, Pivots) will be penalized unless specified
- Connecting steps may be used
- Added elements or the retrying of a missed element will be penalized
- Elements will be conducted using $\frac{1}{2}$ of the ice surface except for senior bronze and up, at the discretion of the tech rep.
- If not successfully skated the first try, each element may be retried once, by signaling the referee with the raised hand.
- Elements that require skater to be physically joined together at any time are prohibited – these include a team spiral or shoot-the-duck. The rationale for the removal of these team element events is due to an increased concern for skater safety.
